Melford Terminal Appoints Director of Business Development

HALIFAX, NOVA SCOTIA - Melford International Terminal Inc. (MITI) today announced the appointment of **Gord McNeil** to the position of Director of Business Development for the container terminal and logistics park to be developed at Melford, Nova Scotia.

Mr. McNeil of Burlington, Ontario has spent the past 31 years in the transportation sector and is currently serving as President of the Toronto Transportation Club, an organization of which he has been a Director since 2002. He has had a long and diverse history in the industry, including ownership of a regional transportation company in Central Canada, as a facilitator to both US and Canadian port authorities and as a leader in the market development of a number of short sea shipping initiatives currently being evaluated.

Mr. McNeil has been a strong proponent of multi-modal logistic solutions and has recent experience in logistics, warehousing and freight forwarding, all of which ties in nicely with the development plans at Melford.

In his role with Melford, Mr. McNeil will concentrate his efforts on the Central Canada and US Midwest markets.

Melford International Terminal Inc. – Melford International Terminal is a Nova Scotia company that is developing a container terminal, rail intermodal facility and logistics park at Melford, Guysborough County on the Strait of Canso. Melford Terminal intends to capitalize on the opportunities presented by the rapid growth in Asian – North American trade and is scheduled to open in 2011.
